STATEMENT TO SHAREHOLDERS

IN RELATION TO

PROPOSED SHARE BUY-BACK

MALAYAN CEMENT BERHAD
[Company No. 195001000048 (1877-T)]
(Incorporated in Malaysia)

To: Our Shareholders

STATEMENT IN RELATION TO THE PROPOSED SHARE BUY-BACK

1. INTRODUCTION

On 30 September 2020, our Company announced its intention to seek your approval for the Proposed Share Buy-Back at the forthcoming Seventieth AGM.

This statement serves to provide you with details of the Proposed Share Buy-Back as well as the recommendation of our Board and to seek your approval for the ordinary resolution to be tabled at the forthcoming Seventieth AGM.

2. PROPOSED SHARE BUY-BACK

Our Board is seeking your approval for the renewal of authority for our Company to purchase and/or hold from time to time and at any time up to ten per centum (10%) of the total number of issued Shares for the time being quoted on Bursa Securities through stockbrokers (pursuant to Paragraph 12.15 of the Listing Requirements subject to compliance with Section 127 of the Act, the Listing Requirements and other applicable rules and regulations). Based on the total number of issued Shares as at LPD of 849,695,476 Shares, our Company may purchase up to a maximum of 84,969,547 number of Shares pursuant to the Proposed Share Buy-Back, representing ten per centum (10%) of the total number of issued Shares.

Your authority for the Proposed Share Buy-Back, if renewed, shall be effective upon the passing of the ordinary resolution for the Proposed Share Buy-Back at the Seventieth AGM, and will remain in effect until the conclusion of the next AGM of our Company, or until the expiry of the period within which the next AGM is required by law to be held, unless revoked or varied by an ordinary resolution of shareholders of our Company in a general meeting, whichever occurs first.

The maximum amount of funds to be allocated for the Proposed Share Buy-Back will be subject to the retained profits of our Company. The Proposed Share Buy-Back will be funded from internally generated funds and/or bank borrowings. As at 30 June 2020, the audited retained profits of our Company stood at RM440,778,000.

In accordance with the Listing Requirements, our Company may only purchase the Shares on Bursa Securities at a price which is not more than fifteen per centum (15%) above the weighted average market price for the Shares for the five (5) market days immediately before the purchase(s) and our Company may only resell the treasury shares on Bursa Securities or transfer the treasury shares pursuant to Section 127(7) of the Act at:

- (a) a price which is not less than the weighted average market price for the Shares for the five (5) market days immediately before the resale or transfer; or
- (b) a discounted price of not more than five per centum (5%) to the weighted average market price for the Shares for the five (5) market days immediately before the resale or transfer provided that:
 - (i) the resale or transfer takes place not earlier than thirty (30) days from the date of purchase; and
 - (ii) the resale or transfer price is not less than the cost of purchase of the Shares being resold or transferred.

The authority for the Proposed Share Buy-Back will allow your Directors to exercise the power of our Company to purchase its own Shares at any time within the abovementioned time period using the internal funds and/or bank borrowings of our Company. The actual number of Shares to be purchased will depend on the market conditions and sentiments of the stock market, the availability of retained profits as well as the financial resources available to our Group. In the event that the Proposed Share Buy-Back is funded by bank borrowings, the amount of bank borrowings will depend on the number of Shares purchased and our Company's repayment capabilities.

Our Directors may deal with the Shares bought back in the following manner:

- (i) cancel the Shares so purchased; and/or
- (ii) retain the Shares so purchased in treasury, to be distributed as dividend to the shareholders and/or resold on the market of Bursa Securities and/or transferred for the purposes of or under an employees' share scheme and/or transferred as purchase consideration; and/or
- (iii) retain part of the Shares so purchased as treasury shares and cancel the remainder; and/or
- (iv) deal with the Shares in any other manner as may be permitted by the applicable laws and/or regulations in force from time to time.

Where our Directors intend to retain the Shares so purchased as treasury shares, cancel Shares, or both, an appropriate announcement will be made to Bursa Securities. In the event that our Company ceases to hold all or any part of such Shares as a result of the above actions, our Company may further purchase and/or hold such additional number of Shares (in aggregate with the Shares then still held by our Company) which shall not exceed ten per centum (10%) of the total number of issued Shares of our Company for the time being quoted on Bursa Securities.

If our Board decides to retain the Shares so purchased as treasury shares, it may distribute the treasury shares as dividends to the shareholders and/or resell the Shares so purchased on Bursa Securities and utilise the proceeds for any feasible investment opportunity arising in the future, or as working capital. The treatment of the Shares so purchased and held as treasury shares, whether distributed as dividends, resold on Bursa Securities or cancelled by our Company, will in turn depend on the availability of the retained profits of our Company.

In the event that our Company decides to resell or transfer the treasury shares, our Company will be required to release an announcement on the day of the resale or transfer pursuant to Section 127(7) of the Act, providing details as prescribed by Bursa Securities.

In the event that our Company decides to cancel the treasury shares, our Company must release an announcement on the day the cancellation is made providing details of the number of treasury shares cancelled, the date of cancellation and the outstanding and paid-up capital of MCB after the cancellation.

3. RATIONALE FOR THE PROPOSED SHARE BUY-BACK

The potential benefits of a share buy-back exercise to our Company and our shareholders are as follows:

- Where our Directors resolve to cancel the Shares so purchased, the EPS of our Group is expected to be enhanced as a result of the reduction in the total number of issued Shares as described in Section 5 on "Effects of the Proposed Share Buy-Back", thereby enabling long term and genuine investors to enjoy any potential corresponding increase in the value of their investments in our Company;
- Where the Shares bought back are retained as treasury shares, our Directors would have an option to distribute these Shares as dividends to reward shareholders;
- Our Company may be able to reduce any unwarranted volatility of its Shares and assist to stabilise the supply, demand and price of its Shares in the open market, thereby supporting the fundamental value of its Shares.

4. **POTENTIAL ADVANTAGES AND DISADVANTAGES OF THE PROPOSED SHARE BUY-BACK**

The financial resources of our Group may increase if the purchased Shares held as treasury shares are resold at prices higher than their purchase price. Other advantages of the Proposed Share Buy-Back are outlined in Section 3 on the “Rationale for the Proposed Share Buy-Back”.

The Proposed Share Buy-Back, if implemented will reduce the financial resources of our Group and may result in our Group foregoing better investment opportunities that may emerge in the future or, at the least, deprive our Company and our Group of interest income that can be derived from the funds utilised for the Proposed Share Buy-Back. It may also result in a lower amount of cash reserves available for dividends to be declared to shareholders as funds are utilised to purchase Shares. In the event that the Proposed Share Buy-Back is funded by bank borrowings, our Company’s net cash flow may decline to the extent of the interest costs associated with such borrowings.

Nevertheless, the Proposed Share Buy-Back is not expected to cause any potential material disadvantage to our Company or our shareholders as any share buy-back exercise will be undertaken only after in-depth consideration of the financial resources of our Group and of the resultant impact on you. Our Board, in exercising any decision on the Proposed Share Buy-Back, will be mindful of the interests of our Company and our shareholders.

5. **EFFECTS OF THE PROPOSED SHARE BUY-BACK**

On the assumption that the Proposed Share Buy-Back is carried out in full, the effects of the Proposed Share Buy-Back on the total number of issued Shares, NA, working capital, earnings and dividends of our Company are set out below:

5.1 **Total Number of Issued Shares**

In the event our Company acquires all the Shares authorised under the Proposed Share Buy-Back and such Shares so acquired are cancelled, the proforma effects on the total number of issued Shares as at LPD will be as follows:

	<u>No. of shares</u>
Total number of issued Shares as at LPD	849,695,476
<i>Less</i>	
Maximum no. of Shares that may be purchased pursuant to the Proposed Share Buy-Back (10%)	<u>84,969,547</u>
After the Proposed Share Buy-Back	<u>764,725,929</u>

However, the Proposed Share Buy-Back is not expected to have any effect on the total number of issued Shares if the Shares so purchased are retained as treasury shares but the rights attaching to the treasury shares as to voting, dividends and participation in the other distribution or otherwise will be suspended. While these Shares remain as treasury shares, the Act prohibits the taking into account of such Shares in calculating the number or percentage of Shares in our Company for any purpose whatsoever including substantial shareholdings, takeovers, notices, requisitioning of meetings, quorum for meetings and the result of a vote on a resolution at a meeting.

5.2 **NA**

The Proposed Share Buy-Back is likely to reduce the NA per Share of our Group if the purchase price exceeds the NA per Share of our Group at the time of purchase and will increase the NA per Share of our Group if the purchase price is less than the NA per Share of our Group at the time of purchase.

For Shares so purchased which are retained as treasury shares, the NA of our Group will increase upon the resale of these Shares, assuming that a gain has been realised. Again, the quantum of the increase in NA will depend on the actual selling price of the treasury shares and the number of treasury shares resold.

5.3 Working Capital

The Proposed Share Buy-Back will reduce the working capital of our Group, the quantum of which depends on, amongst others, the number of Shares eventually purchased and the purchase price of the Shares. The cash flow of our Group will be reduced relatively to the number of Shares eventually purchased and the purchase price of the Shares.

For Shares so purchased which are kept as treasury shares, upon its resale, the working capital and cash flow of our Company will increase. Again, the quantum of the increase in the working capital and cash flow will depend on the actual selling price of the treasury shares and the number of treasury shares resold.

5.4 Earnings

The effects of the Proposed Share Buy-Back on the EPS of our Group are dependent on the purchase price of the Shares and the effective funding cost or loss in interest income to our Group. If the Shares purchased by our Company are cancelled, the net EPS of MCB may increase as a result of the reduction in the total number of issued Shares of our Company.

5.5 Dividends

The Proposed Share Buy-Back will have the effect of increasing the dividend rate per Share as a result of the reduction in the number of issued Shares of our Company.

As stated in Section 2 of this statement, our Board has the option of distributing treasury shares as share dividends to our shareholders.

6. PURCHASES OF OWN SHARES, RESALE, TRANSFER OR CANCELLATION OF TREASURY SHARES IN THE PRECEDING 12 MONTHS

Our Company has not made any purchase, resale, transfer or cancellation of its own shares in the twelve (12) months preceding the LPD. As at LPD, no treasury shares were held by our Company.

7. PUBLIC SHAREHOLDING SPREAD

On 18 June 2020, our Company announced that Bursa Securities has resolved, pursuant to an application by our Company, to accept MCB's then public shareholding spread of twenty-two point ninety-five per centum (22.95%) ("**Accepted Public Shareholding Spread**") as in compliance with the public shareholding spread requirement under Paragraph 8.02(1) of the Listing Requirements, subject to specified conditions and that MCB is required to use its best endeavours to increase the percentage of public shareholding to twenty five per centum (25%). The reduction in public shareholding spread arose as a result of the mandatory take-over offer by YTL Cement of all the remaining Shares not already owned by YTL Cement which completed on 13 June 2019.

As at LPD, the public shareholding spread of our Company stood at twenty-two point ninety-five per centum (22.95%). Our Company will only purchase its own shares if it will not result in the public shareholding spread falling below the Accepted Public Shareholding Spread.

8. IMPLICATION RELATING TO THE CODE

Based on the register of substantial shareholders of our Company as at the LPD, the purchase by MCB of its own shares pursuant to the Proposed Share Buy-Back alone will not trigger the provisions on mandatory takeover under the Code.

9. HISTORICAL SHARE PRICES

The monthly highest and lowest prices of MCB Shares traded on Bursa Securities for the past 12 months from October 2019 to September 2020 are as follows:

	High (RM)	Low (RM)

2.5 RATIONALE FOR AND BENEFITS OF THE PROPOSED RENEWAL OF SHAREHOLDER MANDATE

The Recurrent Related Party Transactions entered or to be entered into from time to time by our Group with the Related Parties are all in the ordinary course of business and intended to meet the business needs of our Group at the best possible terms so as to achieve synergistic benefits within our Group. They are likely to occur with some degree of frequency and may be constrained by the time sensitive nature and confidentiality of such transactions, thus rendering it impractical to seek shareholders’ approval on a case by case basis before entering into such Recurrent Related Party Transactions.

The Proposed Renewal of Shareholder Mandate, which will be subject to review at the forthcoming AGM, will enable our Group to carry out the Recurrent Related Party Transactions which are necessary for our day-to-day operations on a more efficient and timelier basis, eliminating the need to make frequent announcements to Bursa Securities or convene separate general meetings to seek your approval as and when the transactions occur. This would help save valuable administrative time and expenses which could be better utilised towards pursuing our corporate objectives.

Additionally, the sale and purchase of goods and the provision of services between our Group and the Related Parties have the advantage of reliability in terms of quality of goods, standard of service and support, product information and knowledge. In addition, by transacting with the Related Parties, our Group would have the added advantage of confidence and familiarity with the background, financial well-being and management of these Related Parties, thus enabling more informed commercial decisions to be made and ensuring timely recovery of business debts from such parties. The sale of goods and provision of services to the Related Parties also provide an additional source of income, which will contribute to our Group’s revenue and profitability.

Further key points of the benefits of these transactions are set out in the following table:

In certain instances, the Related Parties provide our Group the support for its operational needs, thereby enabling greater efficiency and effectiveness in the utilization of our Group's resources.

2.6 REVIEW PROCEDURES

If a member of our Board or the Audit and Risk Management Committee has an interest (direct or indirect) in a Recurrent Related Party Transactions, he/she will abstain from deliberation and any decision making in respect of the said transaction.
- (vii) If our Board and Audit and Risk Management Committee are of the view that the review procedures are no longer sufficient to ensure that the Recurrent Related Party Transactions are made on arm's length basis, on terms not more favourable to the Related Parties than those generally available to the public and are not to the detriment of our minority shareholders, they shall have the discretion to discharge, vary and/or modify or implement new and/or additional procedures and guidelines without the approval of the shareholders provided that such amended, varied, modified, new or additional procedures are no less stringent than the existing procedures and guidelines.
- (viii) Disclosure will be made in the annual report of our Company of the aggregate value of the Recurrent Related Party Transactions conducted pursuant to the Proposed Renewal of Shareholder Mandate during the financial year where the aggregate value is equal to or more than the threshold prescribed under Paragraph 10.09(1) of the Listing Requirements.

In addition, if the actual value of the Recurrent Related Party Transactions entered into by our Group exceeds the estimated value of the Recurrent Related Party Transactions disclosed in the circular to the shareholders on the Proposed Renewal of Shareholder Mandate by 10% or more, our Company will make an immediate announcement to Bursa Securities.
